

1. UNIVERSITY OF DODOMA (UDOM)

Year of Establishment; 2007

Website; www.udom.ac.tz

The University of Dodoma (UDOM) is located at Chimwaga area about 8 kilometers East of Dodoma town center. The University is within Dodoma District and covers an area of about 15,000 acres (6,000 hectares). It was established in the year 2007. It is the unique university in Tanzania because it is the largest in the country enrolling 40,000. This University is a proud of Tanzania due to the fact that was whole built using domestic finances, and has a specific purpose of bringing positive impact on the development of our country and the world at large. UDOM is built at the centre of the country. In its structure, the university is committed to provide knowledge and skills on different fields of study including health, engineering in (ICT, environment, and earth sciences), education, energy, technology, business, economy, languages, arts, development studies, mathematics, natural sciences, social sciences and law. Different programmes have been designed for each field of study mentioned and these include: diploma, degree, masters and PhDs. Another thing that makes the University of Dodoma unique is its structure. The university has six (6) Colleges, (3) Schools and (2) Institutes in its campus each with different capacity of enrollment of students at a time. Again, each college is built in a separate area and all necessary services are available in each college.
